DESCRIPTION

A beautiful 1965 Ford Mustang Fastback, equipped with the 289 V8 engine and a smooth-shifting automatic transmission.

A true classic with the right look and a wonderful exhaust note.

This Mustang was imported from the United States to Germany nine years ago and was recently brought to Sevenum by us.

The interior is neat and well-maintained. The engine runs beautifully and, combined with the automatic transmission, offers a comfortable and unique driving experience.

A few years ago, the Mustang was repainted in a lovely blue color. The paintwork is not perfect, but it suits the character of this classic Fastback.

In short, a beautiful and honest Ford Mustang Fastback with a strong 289 V8, a smart appearance, and great driving appeal. An ideal car for enthusiasts looking for a characterful American classic that is ready to be enjoyed immediately.

The Mustang has Dutch registration.

Highlights:

- 1965 Ford Mustang Fastback
- 289 V8 engine (replacing the original 6-cylinder engine)

- Automatic transmission
- Imported from the USA to Germany 9 years ago
- Repainted in a lovely blue color a few years ago
